

Land Management Plan

The Gallatin Conservation District thanks you for your interest in our cost share program and appreciates your stewardship efforts. As a part of the cost share program, we ask that you have an overall land management plan for your property. A management plan helps you prioritize your goals for your property and distribute your resources more effectively.

We ask that you write down your goals and implementation plan on the following form. With each of these, be specific, be realistic, and plan goals in a timely fashion. Most goals are going to take several years – plan to prioritize your most critical resource concerns first. We would like a plan for at least your top four (4) resource concerns. Examples of resource concerns are:

<input type="radio"/> Grass / Grazing Management	<input type="radio"/> Water / Stream / Riparian Area Management
<input type="radio"/> Wildlife / Game Bird / Pollinators	<input type="radio"/> Energy Conservation
<input type="radio"/> Soils / Fertilizer / Organic Matter	<input type="radio"/> Trees / Shrubbery / Shelterbelt / Windbreak
<input type="radio"/> Composting / Manure Management	<input type="radio"/> Pest Control
<input type="radio"/> Confinement Areas / Dry Lot Fencing	<input type="radio"/> Weed Management
<input type="radio"/> Fire Protection	<input type="radio"/> Corrals / Outbuildings
<input type="radio"/> Equipment	<input type="radio"/>

Once you have completed the form, keep a copy for yourself and submit a copy along with your cost share application to the Gallatin Conservation District, PO Box 569, Manhattan MT 59741. If you'd like to receive this form electronically, email elizabeth@gallatincd.org or call 282-4350. **Please fill form out completely.**

Land Management Plan

1. Goals for _____ (specify from resource concern list in priority order)

Implementation Plan; specify what area you will work on:	Material & Time Needed:	Cost:
Yr 1:		
Yr 2:		
Yr 3:		
Yr 4:		

Notate successes or what didn't work:

2. Goals for _____ (specify from resource concern list in priority order)

Implementation Plan; specify what area you will work on:	Material & Time Needed:	Cost:
Yr 1:		
Yr 2:		
Yr 3:		
Yr 4:
